## COMPUTER LAB

Mrs. Evans    [gevens@ccboe.com](mailto:gevens@ccboe.com)

During the Summer break, allow your child to spend an hour or more once a week on one or more of the educational sites listed:

<http://www.starfall.com>

This public site has many interactive activities and games to teach students how to read with phonics.

<http://www.funbrain.com>

This site is #1 for math, spelling, science, grammar, and history games while learning.

<http://www.abcya.com>

This site is sorted by grade levels – PreK thru 5<sup>th</sup>. It introduces computer science, reading, science, typing, and language arts activities and games.

<http://pbskids.org>

This site is filled with endless educational games, videos and activities for all ages.

<http://kids.nationalgeographic.com/kids>

The National Geographic Kids is a great site to educate students on people, animals, places and facts with an array of games and activities.

<http://www.netsmartzkids.org>

This site offers games, videos and interactive activities so students can learn how to be safe and how to have confidence online.

<http://www.learninggamesforkids.com>

The site makes learning fun for students. It has an unlimited amount of games for every subject in elementary classes and life skills.

<http://switchzoo.com>

Watch, Listen, and Play games in learning about a variety of animals.

<http://www.seussville.com>

Play games, watch videos, read, and hang out with Dr. Seuss and his friends.

<https://www.highlightskids.com>

The website allows students to play games, read stories, and learn science experiments while having fun!

### ***MOBY MAX/ Summer Learning Program***

Want to keep your child learning over the summer break? Moby Max helps learners quickly catch up to their grade level and closes learning gaps for all students. Starting the week of June 4<sup>th</sup>, information will go home to parents explaining about the learning program, which begins Tuesday, May 29, 2018 and ends on Sunday, June 24, 2018.

The summer program and listed websites will help to boost student learning over the summer break.

Enjoy the Summer!
