## Climate Survey

Charles County Public Schools firmly believes that schools should be measured by more than just test scores. We know that student achievement is important, but we also know that test scores are not the only way to measure the effectiveness of a school. That is why we are asking for your input.

We would like to know what you think about your child's school. In which ways is your child's school succeeding? What does it need to improve upon? To find out the answers to these questions, we'd like you to complete a confidential survey by June 15<sup>th</sup> that will help us learn about your perceptions of your child's school. Your opinions about your child's school are important, and they will help us understand how we can improve as we strive to meet the needs of all of our students and families. The survey will close on June 15<sup>th</sup>.

When you have completed the survey, please click on the "Submit Survey" button, and wait for a "Thank you for your submission" message to load. Your responses to the survey are recorded when the "Thank you" page loads. Thank you for taking the time to complete this survey!
