

# ESOL Literacy (Grade 9)

CHARLES COUNTY PUBLIC SCHOOLS

**ESOL Literacy**  
**(Grade 9)**  
**Weeks 7-8**  
**(May 18 – May 29)**

Dear parents,

If your child is participating in distance learning solely through the completion of our instructional packets, you are required to call or email the principal to inform them of your child's participation status, since packet-assignments will not be collected until a later time. Please keep all of your child's work in a safe place until you are notified of when, where and how to submit. Thank you for your attention to this matter.

# **ESOL Literacy (Grade 9)**

Estimados padres,

Si su hijo/a está participando en el aprendizaje a distancia completando solamente nuestros paquetes de instrucción, deberá llamar o enviar un correo electrónico al director para informarle sobre el estado de participación de su hijo/a, ya que las asignaciones realizadas en los paquetes no se recopilarán hasta más tarde. Por favor mantenga todo el trabajo de su hijo/a en un lugar seguro hasta que se le notifique cuándo, dónde y cómo presentarlo. Gracias por su atención a este asunto.

## **Bob and the Bug**

Mat and Bob are pals.

They run in the sand.

They dig a bed in the sand.

Then they sit on a log.

A big red bug hops by Bob.

The bug digs. Bob digs, too.

The bug runs. Bob runs, too.

“Bob, Bob! Come back, Bob!”

Where is Bob? Is Bob lost?

Here comes the red bug.

Here comes Bob!

Bob isn't lost!

Mat and Bob have fun in the sun.

**Words to Sort**

Write these words under the correct clue word.

- bug      bun      rag  
gun      flag      hug  
stag      stun      slug

rug

sun

bag

# Animal Hibernation

Written by Michael Gravelle

Illustrated by Aaron Houston

Animals need food so that they can have energy. They use that energy to move and stay warm.

But sometimes food can be hard to find, especially in winter. So some animals, like groundhogs and squirrels, have found a way to live through the cold winter by saving up their energy. It's called hibernation.

Before animals hibernate, they eat as much as they can. Their bodies turn the food into a layer of fat. The fat gives the animals all the energy they need while they're hibernating.

Since it takes a lot of energy to move, animals hold very still while they hibernate. In fact, hibernation looks a lot like sleeping. They're not sleeping, though. They're very carefully saving energy.

Remember how it also takes energy for mammals to stay warm? Well, when most animals hibernate, their body temperatures get very low. Some animals cool off so much that they're almost the same temperature as snow!

When the cold weather ends, the animals warm up and start moving and looking for food again.
