What do you want to know more about?

I would like to know about teacher recruitment efforts. How are you trying to make sure that the teachers in the school system reflect the <sup>evolving</sup> racial, ethnic, and gender diversity of the county? How are you trying to get more black, Latino, and male teachers to teach in our schools?

How do you think CCPS can improve the services we provide to students?

I think that the county could provide more out of the classroom learning opportunities to students. Increase the number and effectiveness of fieldtrips and (perhaps) invite outside speaker to come to schools or classrooms.

What is CCPS doing well?

I performed the presentation style of the PAC meetings. They were very informative, and they still allowed parents to offer feedback. I would not have known a lot of the things I learned had I not heard those presentations at PAC meetings over the last few years.

What do you want to know more about?

All services available @ the elementary school level (e.g., counselors, reading specialist, parent trainings / engagement opportunities)

How do you think CCPS can improve the services we provide to students?

- Create more professional opportunities / experiences for students, for example - what do engineers do? what do doctors do? what does a veterinarian do? } skills, classes, etc. needed to attain these jobs?
- Gifted and Talented programs
- Programs for parents with children on the Autism Spectrum

What is CCPS doing well?

- Engagement (parent + community)
- Training of teachers (P.D.)
- Communication (redistricting, festivals)
- PAC mtg format (revised format is much better)

What do you want to know more about?  
Testing standards. How teachers prepare the kids? Process + expectation before testing day comes

How do you think CCPS can improve the services we provide to students?  
First of all, services available need to be communicated effectively.  
Consider the level of the child when developing + implementing services.  
Even distribution of services @ each level

What is CCPS doing well?  
I enjoyed the engaging format of the PAC meeting

What do you want to know more about?

- Status of zoning changes as they progress.
- What exactly is on each type of test and what the goal (or what it is to measure).

How do you think CCPS can improve the services we provide to students?

- More on-line work vs. all of the sheets of paper that come home for homework.
- I feel these test programs, like Discovery Education should be mandatory. If we aren't able to vet the program it will be difficult to decide if we should move forward.

What is CCPS doing well?

- Becoming more progressive with technology.
- Great format tonight! Much better than a meeting full of presentations. One suggestion - if there are things you would like feedback on (as we did tonight in the roundtable) it would be helpful to know the topics ahead of time.
