

Charles County Public Schools

Elementary School Redistricting

February 2019

Fact Sheet 5

Important Information

Board decision

The elementary school redistricting establishes an attendance zone for Billingsley Elementary School, which opens in September 2019. It also relieves overcrowding at most elementary schools. The Board of Education approved the redistricting on June 13, 2017, after a year-long process that included five public hearings and a year before it would take effect.

Originally, the redistricting was to take effect at the start of the 2018-19 school year. Construction delays postponed the opening of Billingsley until September 2019. The Board voted on Sept. 25, 2017, to defer the opening of the school and the accompanying redistricting until September 2019. Redistricting affects about 2,500 students and includes students in prekindergarten to Grade 5.

Next steps

CCPS has added a Redistricting School Locator to the Redistricting website page, <https://www.ccboe.com/index.php/elementary-redistricting>, to allow residents to input their address and see which school zone their neighborhood will be rezoned to in September 2019. Specific questions can be directed in writing to redistrict@ccboe.com or by calling 301-934-7262. School principals at affected schools will host welcoming activities for students and parents in the spring.

Billingsley Elementary School

Communities impacted but not limited to:

- **To Billingsley from Berry:** Worthington/Greenhaven Run; Middleton Woods; Avalon; Charles Crossing/Piney Grove Estates; Sun Ridge Lane; Park Avenue; Southwinds; Middletown Road from Charles Crossing to the hiker biker trail; eastbound Billingsley Road from Middletown Road to Crain Highway.
